NED S		

6. Rewrite the amount of stake you want to make on the screen in the metamask wallet application that opens. (dual control)

7 Approve the fee cuts of bnb smart chain and metamask resulting from this transaction.

8. When the stake is finished, the screen will refresh itself. You should wait on this time. And you can check the stake details and the amount of TRMX you will earn at the end of the period by clicking the details section under the time you have selected in the JOINED STAKING POOLS section at the bottom.
